## SUMMARY

I am a motivated person who wants to use my technical and creative skills to solve real problems. I've completed my Bachelor of Technology in Artificial Intelligence and Data Science. My coursework is focused on programming languages, algorithms and data structures. I really love building experiences that are easy to use and look great. I want to use my software development, design thinking and engineering skills to create world-class projects. I am good at working with others communicating and being part of a team. I have shown this through my project

## EXPERIENCES

### Duhzine IT Solutions | UI/UX Design & Web Development Intern May 2026 - July 2026

1. **SI Homes Real Estate Platform:** Created a modern and user-centric UI/UX design for a real estate client, optimizing property search interfaces, filtering systems, and navigation flows to enhance property discovery and user engagement.

Project link: [Link](#)

2. **DStudios Photography Studio Website:** Conceptualized and designed a high-end, responsive UI/UX web layout for a professional photography studio using Figma, focusing on advanced prototyping, clean visual hierarchy, and intuitive user journeys to showcase digital portfolios.

Project link: [Link](#)

3. **Sindhu's Clinic Healthcare Website:** Developed an accessible and clean UI/UX interface for a medical clinic, focusing on streamlined appointment booking workflows, clear service categorization, and a reassuring, professional visual design.

I am hoping to get a job as a UI/UX Designer.

## EDUCATION

Bachelor of Technology in Artificial Intelligence and Data Science at Vel Tech Multi Tech Dr. Rangarajan Dr. Sakunthala Engineering College in Avadi. My CGPA is 6.29. I studied at this college from 2022 to 2026.

Higher Secondary Education Completed at Pachamuthu Matric Higher Secondary School in Dharmapuri in 2022. I got a percentage of 72%.

I really love building experiences that are easy to use and look great. I want to use my software development, design thinking and engineering skills to create world-class projects. I am good at working with others communicating and being part of a team. I have shown this through my project.

## ACADEMIC PROJECTS

**Project 1:** I worked on a project called AI-Powered Smart Traffic Management System Using Machine Learning.

I used Python, Machine Learning, Streamlit, HTML and CSS to create a traffic management system that can optimize traffic signal timing and improve traffic flow. This project helps solve traffic problems and promotes sustainable mobility.

**Project 2:** I also worked on a project called Virtual Nursing Assistant Using NLP and IoT for Real-Time Patient Care and Monitoring.

I used Python, Convolutional Neural Networks, Natural Language Processing, Machine Learning, FastAPI and Large Language Models to create a Virtual Nursing Assistant system. This system helps hospitals monitor patients improves healthcare and makes the user experience better.

---

## INTERNSHIPS

### PYTHON PROGRAMMING

VLOG INNOVATIONS LLP

I Learned About Python at VLog Innovations LLP, Including basic of Syntax, Comments, Variables, and Data Type Numbers.

### APP DEVELOPEMENT

VLOG INNOVATIONS LLP

I Learned About App Development at VLog Innovations LLP, Including there basic of design and tools like Figma and Flutter.

---

## CERTIFICATION

- UI/UX designer role certification,
- App Development Certification,
- Cyber security Assessment.

---

## SKILLS

| Programming               | Software/Tools | Platforms |
|---------------------------|----------------|-----------|
| UI/UX designer, HTML, CSS | Figma          | Git       |
